

Inverters/Chargers

Tripp Lite	
EMS1250UL	1250-watt Inverter w/Remote & Cable
	- two hospital grade GFI outlets
	- 3-foot AC power cord
	- two Anderson connectors
	- DC input connects
	- 12/55 amp selectable 3-stage batter charger
Vanner	
20-1050CUL-DC	Life Star 12-VDC to 120-VAC inverter w/battery charger/conditioner. Includes:
	- a ground fault interrupter plug-in for connecting AC output
	- quick connectors for pre-wired vehicles
IFM1	Interface module for use with 20-1050CUL inverter (not required for the Life Star model)
CONN-IVE	Anderson style connectors for Vanner inverters
CONN-IVE COVER	Cover for Anderson Connector
Iota	
DLS-15	15-amp charger/converter
DLS-30	30-amp charger/converter
DLS-45	45-amp charger/converter
DLS-55	55-amp charger/converter
IQ4	Controller, Converts Iota chargers to a 3-stage Smart Charger

Tripp-Lite Provides 1250-watts of continuous power, up to twice the rated load for momentary start-up of inductive loads. Meets KKK-A-1822. Six remote diagnostic LED's indicate AC present, on battery, overload, and battery voltage

Vanner Charger/conditioner, transfer relay, 20 amp KKK Spec portable equipment charging circuit. Output is 1050-watts continuous, with a 2100-watt surge capacity.

CONN-INV

CONN-IVE COVER

Iota Charger/converter quickly charges batteries from the full rated output of the charger. The DLS then maintains the batteries by putting in only what is required by load or self discharge. 13.6 volt output.

Inverters / Chargers
